Bright House Networks PBX Trunks

Flexible, powerful, affordable voice solutions for businesses of all sizes

Whether you have one or 1,000 employees, you're most likely evaluating how IP-based communications could help you cut costs, improve productivity and maximize efficiency. However, questions remain. Is IP right for your business? What about the investment you already have in your existing communications network and equipment? Do the benefits outweigh the cost and effort?

Bright House Networks Business Solutions can answer all your questions and help you implement an IP solution that delivers exactly what you need at the right price point. Discover why more and more businesses nationwide are integrating our advanced PBX Trunk Voice solutions to their existing networks for IP connectivity that is flexible, powerful and affordable.

MAXIMIZE YOUR SUCCESS AND ROI

Bright House Networks provides the many advantages of a single-provider solution for all your internal and external communications – without requiring you to replace your existing equipment. Seamlessly integrating data, local and long distance calling in one cohesive network, our comprehensive PBX Trunk solution streamlines and simplifies management procedures. Whether you're a small business or enterprise organization, you can now cost-effectively leverage the advanced network from Bright House Networks to reach new levels of communication performance and reliability.

SMART COMMUNICATIONS SOLUTIONS FOR BUSINESSES OF ALL SIZES

TD4 – The cost-effective communication option for businesses with up to 20 employees.

TD8 & TD12 – Reliable, flexible communications for businesses employing 60 or fewer.

Business Trunking – Robust, enterprise-level communications for corporations up to 1,000.

POWERFUL ADVANTAGES

Featuring one of the market's finest networks supported by our fiber backbone, as well as industry-leading technology that supports carrier-grade features, Bright House Networks PBX Trunk offerings provide measurable advantages and significant cost savings.

- Enable unified communications with advanced PRI and SIP based Trunks
- Reduce network-management costs by using a single network for data and voice connectivity
- Lower costs of long distance and inter-office calling
- Decrease total cost of ownership – we own and manage our network and the terminating connection equipment in your facility, so you don't pay a premium to lease third-party bandwidth or equipment
- Maximize existing investment – our PBX Trunk solutions work with your existing Hybrid PBX, PBX or IP-PBX system and data equipment
- Benefit from clear digital transmission, reliable service, and secure connectivity
- Eliminate the hassle of dealing with multiple communications providers
